**SIXTEEN YEAR OLD GIRL
IS FOUND DEAD IN BED**

Miss Cora Lucille, the sixteen year old daughter of Mr. and Mrs. H. A. Miller, was found dead in bed Monday morning by her father when he called her to get up. The young lady had not been ill and her sudden and unexpected death was a great shock to her family and friends. She complained of feeling tired Sunday evening but aside from that was apparently in the best of health. The funeral took place Wednesday afternoon at 2:30 from the Methodist church. Rev. Luscombe conducted the services. Six of her class mates from the Eighth grade of the Ontario school acted as pall bearers and the members of the class attended in a body. The casket was entirely covered with many beautiful floral offerings. Interment was in the Ontario cemetery.

It Cokes Coal—Forms No Clinks

This stove burns any fuel—coals, wood, slack, coke, soft or hard coal. It cokes coal, and the room, instead of the chimney, gets the heat. The perforated hot blast converts even the black carbon in the smoke into warmth.

The patented cone-center stove vents clinkers. Lower than the standard ash pit, covers ground in the heavy over-size parts indicate the quality that the Round Oak will build into this heater.
